

Interstate-80

Between Vallejo and Near Davis Lane Striping/Painting Project

Overnight Lane Reductions and Intermittent Highway Closures - May 2018 to August 2018

THE PROJECT

The California Department of Transportation (Caltrans) will repaint and refresh highway lane lines on eastbound and westbound Interstate-80 (I-80) in Solano County.

Project Benefits

The \$3.4 million project is a Senate Bill (SB-1) funded project which will enhance safety for motorists by applying new wet-night-visibility paint to the lanes.

The newly repainted lanes will include traffic lanes on I-80 starting at the Carquinez and Zampa Bridges in Vallejo up to just west of Davis.

The project will replace the old standard 4-inch-wide traffic stripes with the new and brighter 6-inch-wide traffic stripes.

Motorists may encounter overnight lane and ramp closures, and periodic nighttime rolling-highway closures when painting/stripping crews are present.

Work Timeline

Work starts as early as late-May 2018 and may be completed as early as late August 2018.

Construction Zone Activity

Motorists should expect delays and watch for construction signs and flaggers. Drivers should also always drive with caution through the construction zone.

Caltrans thanks you for your patience as we work to maintain California's bridges and highways.
